EXPERIMENT – 6

**Objective:** To Install Mendeley and consider Mendeley desktop for academic references.

Software and Tool used: Mendeley desktop,Browser,

Theory Overview: Mendeley is a free reference manager that can help you store, organize, note, share and cite references and research data:
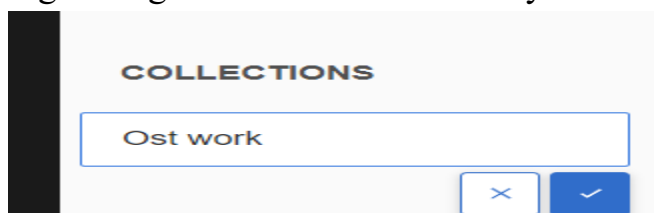

- Automatically generate bibliographies

- Collaborate easily with other researchers online

- Easily import papers from other research software

- Find relevant papers based on what you're reading

- Access your papers from anywhere online

Procedure:

1. Download Mendeley desktop .
   https://www.mendeley.com
2. Create an account on Mendeley.

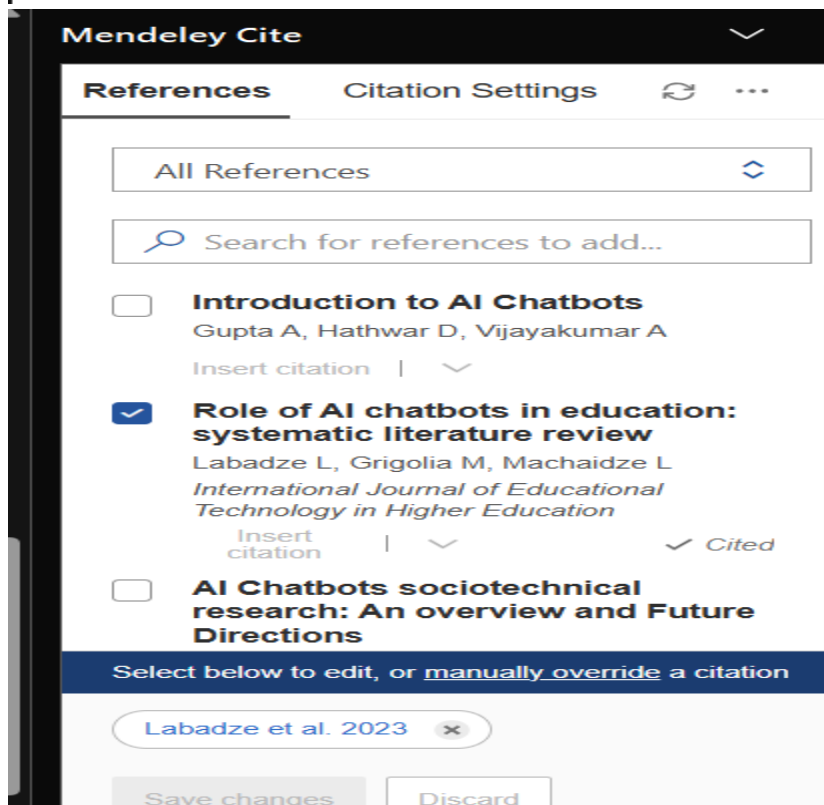

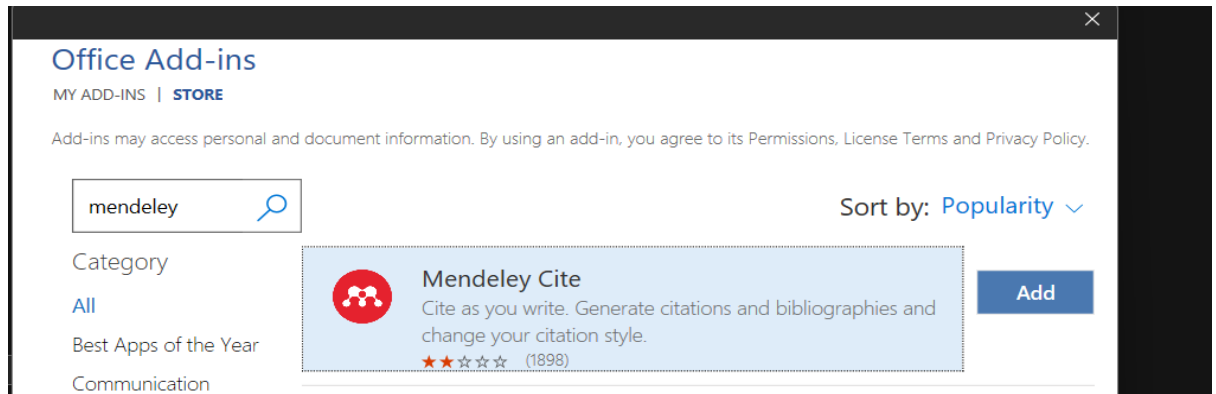

3. In the left sidebar, click "+ New Collection" to create a new folder for organizing   your   references.

4. Add Sample PDFs with Metadata

5. In Microsoft Word, go to Insert > Get Add-ins (or Office Add-ins), search for "Mendeley Cite", and click "Add" to install the plugin.

6. Citation in IEEE Format.
